## Concrete Collection

The product line embodies the rough texture of raw concrete with the smooth finish of HI-MACS®. Available in five shades of concrete inspired from modern industrial architecture, they can be used in any applications, such as wall covering, kitchens and bathrooms, adding a special ambience to the space.

HI-MACS® material is identical for every colour, although darker hues have a higher percentage of natural pigments, which need more careful care and attention. There may be some slight variation in colour between the illustrated and actual colours due to printing techniques, colour may vary slightly from this sample.

To find the most up-to-date information about product range and specification, please visit [www.himacs.eu](http://www.himacs.eu)

\* Suitable for exterior use. Please check conditions about level of suitability and warranty per colour.

\* Disclaimer colours are less suitable for surfaces which are subject to high traffic, due to their deep colour saturation, marks may be seen more easily.

⌘ As Marmo is a randomly veined product, specific fabrication guidelines need to be followed. Ask our sales representative for more information.

☼ Lucent colours have a higher level of translucency, more evident when combined with light sources.
